

Much more than just your average safe!

Fire protective paint

Paint expands when heated & seals the door, this protects both the contents and the locking mechanism of the safe.

Additional Sliding Bolt

Additional locking protection against attack.

Composite Insulation

Provides heat protection for the locks & bolts.

Concealed Door Hinges

Internal hinges are shielded against attacks.

Storage Shelf

Standard across all Combi-Line Safes.

All-over Gripping Rail

Runs across the hinge side.

Wall & Floor Fixing

Extremely high breaking strength

Rotating 25mm Round Bolts

Additional protection against drilling & attack.

Additional Locking Pin

Secures safe door & provides further protection.

3 Security Standards

- Level B according to VDMA24992, 5/95
- Level S 2 according to DIN EN 14450
- fire resistance LFS 30 P according to EN 15659 - 30 min fire protection for paper
