2021 ASSOCIATION MEETINGS

Monday 17th February 2021
Hosted by: SG LOCKS

We would like to say 'Thank You' to the LGA & their members for allowing us to host the first LGA Branch meeting of the year at SG Head-office in Silverwater, NSW

It was a great turn out this year with over 50+ attendees from all over NSW coming together to see our new products and catching up with industry colleagues for dinner & a drink. All members who attended on the night received a free BMI Tape Measure as a gift from the LGA to attending members.

There was considerable interest in our NEW AUTEL Diagnostic machine, the JMA Nomad Key Machine & Our LOCKTON Mortice Lock range

It was great to catch up with you all again.

- SG

ALL ATTENDEES ARE NOW IN THE DRAW TO WIN A JMA[®] NOMAD

*Winner to be announced at this years  Christmas party

ML20

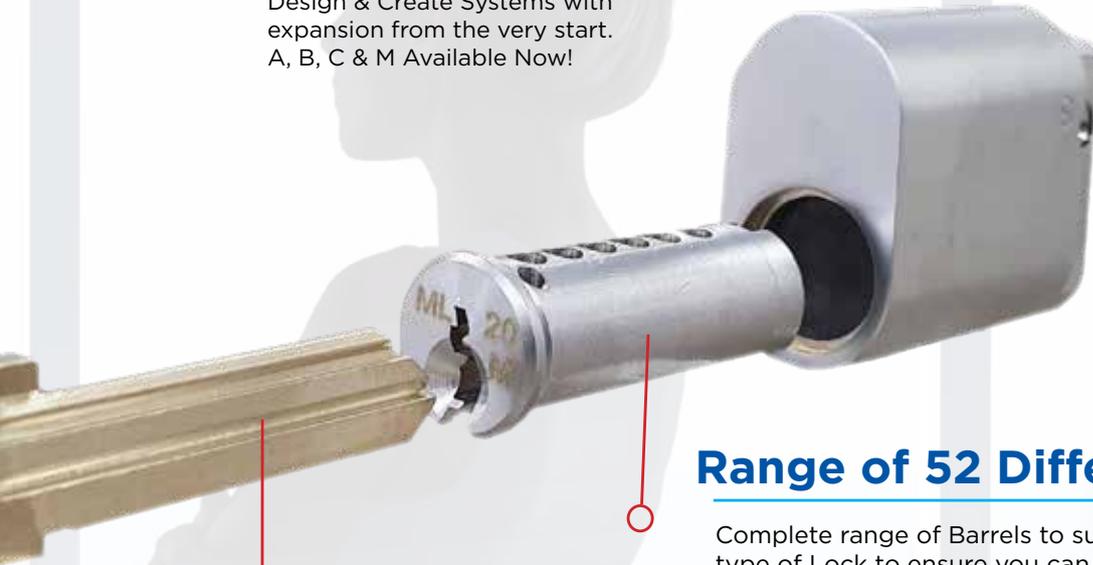

Restricted Key System

"A great opportunity to support your Association"

Multiple Profiles A, B, C & M Available NOW

The only Restricted System to cater for Large Multi-Profile Sites from Day 1

Design & Create Systems with expansion from the very start. A, B, C & M Available Now!

Range of 52 Different Barrels

Complete range of Barrels to suit almost every type of Lock to ensure you can get the job done!

Note: 13 different barrels in A, B, C & M Profiles

Superior Key Design

The key profile design ensures accurate clamping & cutting evrytime. ML20's intricate profile designs also ensure it is one of the hardest inline Restricted systems to manipulate

Customer Testimonial

“

As an organisation, we have been very impressed with the ML20 keying platform. The barrel range is more than ample and the assembled product works perfectly in all the housing brands (oval & night latch) that we have tried.

The ability to acquire short-run key blanks is an added feature that we've not had available from any other keying platform before.

This provides us reassurance that when we need to use another of the keyways, we can achieve this with short run blanks until our coined blanks arrive.

SG Locks have done a superb job in bringing this MLAA branded product to the market

Thank you to the whole team!

”

- Jim Fisher - CLASS LOCKSMITHS

**2021
MLAA BRANCH MEETINGS**

*Huge turnout for
Victorian Branch
Meeting*

The MLAA Victorian Branch Meeting on 24 February 2021 had a fantastic turnout, and was a great reminder of the resilience of the locksmith community in the face of the trials the past year has thrown at us. It was the first Victorian get-together in 12 months.

It was great to see the 80-odd members who came out for a drink, some food, a chat, and a story about a long-suffering Frenchman from David Rees.

“The Master Locksmiths community is one of the great strengths of our industry, and it’s important that we continue to look after each other in these challenging times,” said MLAA’s Victorian Director Jason Catlow.

“These events are a great opportunity to catch up with your fellow locksmiths, and the strong number of attendees that enjoyed last night’s hospitality at Platform 28 goes to show that. I encourage all MLAA members to come along to their local Branch Meetings whenever they can.”

“It was a great feeling to see everyone looking well, to shake a few hands and to chat about how we have all been coping with COVID times and to just relax in general and share some camaraderie,” added Life Member David Rees.

Official SG AUTO 2021 Presentation Launch

The MLAA NSW Branch Meeting on 09 March 2021 at SGLOCKS was a great turnout with many coming out to see the first official SG AUTO 2021 Presentation. The entire AUTO 2021 Range was on display in the SG trailer for all to get hand's on with products and hands on demo's with SG staff. Lot's of focus was on the New IM608-Pro-kit and many members enjoyed programming their first Mercedes Infra red key into a Mercedes Vito EIS ignition on the bench. Formalities were kept to a minimum so we all could enjoy a well-deserved get together with fellow Master Locksmiths and supplier staff. Thanks to all the members who came out for some Great German Beer, Pretzels & food by VOLKSWURST - Cooked fresh & served from their classic VW Combi. It was great to finally catch up with everyone in a social atmosphere & we are all looking forward to doing it again very soon

- SG

Great turnout for Queensland Branch Meeting

The MLAA QLD Branch Meeting on the 11th of March 2021 had a fantastic turnout, one of the largest attendances on record in QLD.

Thanks to the 60-odd members who came out from as far as Toowoomba for a drink, some food, a quick look at some new products including the ML20 restricted key profile.

Among some of the important topics regarding the MLAA was the announcement that the AGM and Annual trade show will be back this year!

MLAA members were delighted to hear that the event will be held at the newly renovated Marriott on the Gold Coast in late October.

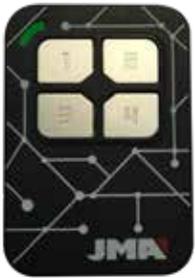

Congrats to Paul Benson of BrizSouth Locksmiths for winning the lucky door prize of an Access Tools Art. ERK car opening kit!

PRODUCT DESCRIPTION

BT SLIM is the new JMA remote control for opening garages, gates and other doors using your mobile.

Simply attach the device to the rear of your smartphone, connect via Bluetooth to the JMARemoteSLIM app and press the open button.

Thanks to its thin lightweight design, BT SLIM can be attached to your mobile comfortably and kept in any pocket.

It also offers a number of other attractive features, such as a remote mobile camera shutter button and other extras that will make using your smartphone more convenient.

BT MULTI USER PRO

PRODUCT DESCRIPTION

BT MULTIUSER PRO is the evolution of the JMA system for opening garages, gates and access doors using a mobile phone.

More than 100 users can now access a single device, which makes it perfect for property owner's communities and workplaces where access is managed by administrative users.

The new power base also comes with an IP66 protection rating.

HOW IT WORKS

The BT MULTIUSER PRO system includes:

- Power supply, installed next to the access it will open
- M-BT remote control with 2 or 4 administrator licenses
- Mobile App used for user licences

The remote control is linked with the JMARemotesUSER app installed on users' phones. Opening is done using a mobile phone via Bluetooth without needing a SIM card or paying for a phone number.

Different licence options available for your needs:

PRICING ADVICE - Effective 15th April 2021

2021 Pricing Review

As I am sure you are aware, we did not adjust our pricing throughout the course of 2020.

We took the decision to maintain a stable pricing policy & absorb the significant cost increases that we faced during a very uncertain time for us all.

Now the worst of this situation seems to be behind us we are forced to pass on some of the increases in Raw Materials, Freight and Currency movements.

Effective 15th April 2021 there will be an adjustment across our range of approximately 6% (on average)

For our most up to date pricing please remember to check our Trade Only website www.sglocks.com.au

If you have any questions regarding these pricing increases, please contact our National Sales Manager, Cole Cullen on:

Email: cole@siepergroup.com or Mobile: 0404 808 807

We look forward to working with you in 2021 and beyond, facing challenges & opportunities together.
