NEW

XM SMART KEY

UNIVERSAL SMART KEY FOR LEXUS , SUBARU, TOYOTA VEHICLES

NEW

Art ID: XS-TOY-00

PRODUCT DESCRIPTION:

The XM Series are a Smart Remote, designed to be used on Vehicles with Smart / Proximity Systems specifically in TOYOTA/LEXUS & SUBARU

In conjunction with the XHORSE Key Tool Max, this remote has the ability to lower the stock holdings of SGT or OEM smart remotes - replacing 20 + types of Toyota/Lexus smart keys alone.

XM - remotes cost 200 points to activate (see points system on next page)
The remotes can be generated infinitely after it's initial activation at no extra point charge.

The PCB has 4 buttons, however these buttons can be configured for different applications using the Key Tool Max and by Key shell selection.

Example: 4 button PCB in 2 Button shell

This series is supplied in **ORANGE** packaging for easy identification.

PRODUCT SPECIFICATION:

- 4-Button
- Suits many Vehicle Makes that start by pushing a Button on the Dash when the key is in Proximity of the Vehicle
- Programmable with the XHORSE Key Tool Max (See Art. KTM)
- Takes a CR2032 Battery (MAXELL CR2032 supplied FREE with order)
- Battery must be in the remote for Wireless generating.

Art ID: KTM

HOW TO IDENTIFY SMART KEYS - ALL KEYS LOST

Check The SRS

The SRS database has lots of vehicle specific Smart key references. Under the original Key/Remote tab you will see the specifics of the OEM key. XHORSE remote pathways are catalogued using the 4 digits at the end of the Part number on the PCB. (shown below A.) There may be multiple remotes with the 4 numbers - make sure you also match the frequency to what is listed on the SRS (shown below B.) If the vehicle is not in the SRS - please send us the Part number obtained from the dealer.

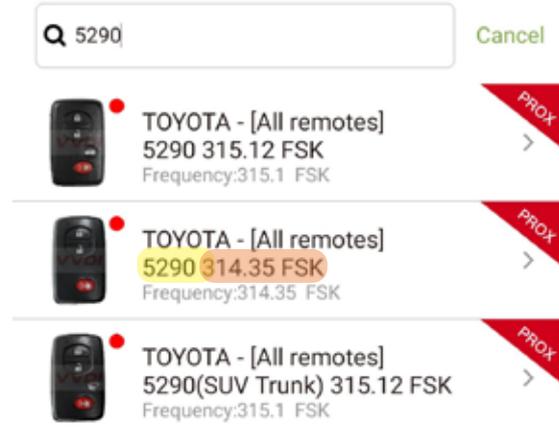

A. Original Key/Remote

Key Type: Proximity Key
Body Colour: Black
Buttons: 4 Button
Frequency: 314MHZ
Manufacturer Art:
FCCID: FCCID: HYQ14ACX PN/ON PCB: 271451-5290
SG Locks Art: TOY-98-FSK-BL [Buy now at SGLOCKS](#)

* Extract from SRS Database

B.

* Extract from Key Tool max search function.

HOW TO IDENTIFY SMART KEYS - ADDITIONAL KEY

Remotes will generally have some alphanumeric markings on them. just like any other product has a part number. These markings can be a very helpful contributing factor when selecting a remote.

On Toyota / Lexus vehicles this number is usually written on the PCB (see right 271451-5290) 5290 - being the number needed for cross reference.

The next determining factor in selection is the remote frequency. Use your Key Tool Max to check the frequency and choose the XHORSE pathway that matches the Number & Frequency.

POINTS SYSTEM - EXPLAINED

XHORSE Points are collected through remote generation. XHORSE points cannot be purchased - Points are only obtained through XHORSE product use.

XK Wired remote = 25 points

8x remotes = 200 points

XN Wireless integrated remote = 40 points

5x remotes = 200 points

XE Wireless Super remote = 40 points

5x remotes = 200 points

XS Smart/Prox remote = 60 points

4x remotes = 240 points

NEW SUBARU PROXIMITY KEY

The New Aftermarket **SK-SUB-4D-3** works with various Vehicles 2011 -2017

SOLDERING

PRODUCT DESCRIPTION:

This Lead-free Solder is designed for use in electrical and electronic applications including PCB rework and because of its 99.3% Tin -0.7% Copper base (Lead free) is considered the most environmentally friendly. Lead Free Solder has become the industry standard for PCB construction and this solder meets this increasingly stringent quality requirement.

PRODUCT SPECIFICATION:

- Melting point 227°C
- Complies with European RoHS
- 200g Roll
- 1mm Diameter

PRODUCT DESCRIPTION:

Desoldering Braid is designed for use with Printed circuit boards. Its main purpose is to remove solder from a PCB.

Place the braid over the solder that you want to remove and apply a soldering iron tip over the braid. When the heat is applied the Solder will run off the PCB & into the braid.

PRODUCT SPECIFICATION:

- High quality, Made in Japan
- Contains wash- free RMA flux
- Conforms to MIL-F-14256F.
- Supplied in plastic reels.
- 3.0 mm braid

PRODUCT DESCRIPTION:

This tip cleaner eliminates the temperature variation associated with the wet sponge approach and does a better job. The curly brass insert does not need to be kept wet and cleans without damaging the tip. Uniform iron temperature ensures consistent joint quality and reduces cycle times. It's made from a heavy-duty heat-resistant rubber base that won't slip around on the bench, is static-safe and is also suitable for lead-free solders. Supplied with spare insert.

PRODUCT SPECIFICATION:

- Diameter 60mm
- Height 58mm
- 3.0 mm braid

PRODUCT DESCRIPTION:

Make soldering easy! No Clean Flux Gel is a tacky rework flux designed to wet virtually all solderable electronic surfaces, components, assemblies, and substrates. It can be used for the general touch-up or rework of printed circuit boards. The superior wetting ability of NCFP results in bright, smooth, and shiny solder joints, whether reflowed by hand or hot-air rework station. Residues that remain on surfaces after soldering are clear, leaving a cosmetically appealing repair that can be easily pin probed during in-circuit tests. No Clean Flux Gel is compatible with all tin-lead and lead-free alloys ensuring a nice easy flow of solder.

PRODUCT SPECIFICATION:

- 5cc (10g) Syringe with Dispensing Tip

Art. F-GEL

PRODUCT DESCRIPTION:

Kleanium™ Deflux-It G2 is a slow drying heavy duty flux remover for more effective cleaning suitable for cleaning PCB's. This special solvent based flux remover has the staying power to really attack some of the toughest baked on fluxes and will leave little or no residue. It is also non-corrosive and compatible with most plastics. Rapidly cleans a variety of soils including waxes, oils and greases.

PRODUCT SPECIFICATION:

- 300g Aerosol with nozzle
- Non corrosive
- Pleasant smelling
- Low toxicity
- Lead and lead-free compatible

Art. F-REMOVER

PRODUCT DESCRIPTION:

This Conductive Brush is designed for use with Printed circuit boards. Its main purpose is to clean Flux or Dirt/Grime without the risk of creating static electricity and damaging sensitive components.

The handle is made from conductive plastic, and the comb from conductive nylon. Use it to clean anything where static is a problem!

This brush is suitable for cleaning any Remote , ECU or Immobiliser PCB.

PRODUCT SPECIFICATION:

- Resistivity: - 10(4) - 10(6) Ohm
- Conductive Nylon Comb
- Conductive Plastic Handle

Art ID: C-BRUSH

PRODUCT DESCRIPTION:

Chemtools® Lint Free Wipes are completely sterile, highly absorbent, extremely soft wipes, free of lint and low in particulate and non-volatile residues. When used with liquids, they are static-free and will not allow dust to cling. Lint Free Wipes are made from ultra-clean cellulose and long polyester fibres. They provide superior cleaning without the risk of surface scratching, making them ideal for wiping sensitive parts and equipment, such as optical and precision instruments, screens, and printer parts. They are recommended for use with a wide range of industrial liquids and solvents, including Isopropyl Alcohol, Acetone, and Methylated Spirits.

PRODUCT SPECIFICATION:

- Material: Non-woven blend of polyester and lyocell
- ESD Category: Static neutral when used with liquids
- Strength: Excellent, both wet and dry
- Packet of 50

Art ID: LF-WIPES

PRODUCT DESCRIPTION:

The corrosion buster pen is designed for use with Printed circuit boards. Its main purpose is to remove rust, wax & dirt from every nook & cranny without harsh chemicals.

The amazing spot cleaning brush tip is like a mini sandblaster pen with 20,000 fibres in the point. The pen has an amply sized body with finger indent to provide a comfortable & secure grip while the adjustable length allows for more aggressive cleaning when required.

PRODUCT SPECIFICATION:

- 20,000 Fibreglass bristles in point
- Adjustable point length

Art ID: CB-PEN

 **LEDLENSER.**

PRODUCT DESCRIPTION

The K4R keyring light raises performance, technology and design to a new level. This small everyday helper housed in a high-quality and well-designed aluminium case reaches up to 60 lumens and provides wide-area illumination. The first lamp in the new K Series, the K4R is rechargeable and is equipped with the additional safety of an SOS distress signal mode.

- Extremely compact
- 60 lumens
- 1.5 hours runtime
- COB LED
- 2 power mode
- Rechargeable
- S.O.S function
- Metal snap hook

* JULY Promo 2021 Promo" valid until 31st July 2021 or whilst stocks last.

* Free Promotion item is only valid for online orders * Pricing shown excludes GST

All pricing within is accurate as of 01/07/2021 and is subject to change. For most accurate pricing please check the sglocks website.
